#### 2 Qualitative information

A lawsuit alleging violation of the Antimonopoly Act in the bid for the Chuo Shinkansen maglev line construction project was filed against the Company by the Tokyo District Public Prosecutors Office in March of this year. The Tokyo District Court handed down a guilty verdict on October 22 and imposed a 200 million yen fine. We offer our deepest apologies for having caused our shareholders and all other stakeholders great concern.

The Obayashi Group recognizes the seriousness of this judgment. We intend to tenaciously pursue management that places highest priority on compliance in the operation of all of our businesses, and will work to earn back the trust of our stakeholders as quickly as possible.

We would appreciate your understanding and support in the future.

## (1) Overview of consolidated business results

During the first six months of the fiscal year under review (April 1–September 30, 2018), the Japanese economy continued to recovery gradually, aided by improvement in corporate profits and growth in private-sector capital investment, among other factors.

Orders in the domestic construction market remained firm and were generally strong for both public and private-sector construction.

Amid these conditions, our consolidated net sales for the first six months of the fiscal year under review were 937.1 billion yen, an increase of 19.6 billion yen (2.1%) year-on-year. This was primarily due to an increase in net sales from the construction business of subsidiaries, despite the decline in sales in the Company's domestic building construction business. On the earnings front, operating income rose to 65.0 billion yen, an increase of 2.6 billion yen (4.3%) over the same period last fiscal year. Ordinary income was 69.7 billion yen, an increase of 3.6 billion yen (5.6%) year-on-year, and profit attributable to owners of parent was 48.8 billion yen, an increase of 0.4 billion yen (0.9%) over the first six months of the previous fiscal year.

The Obayashi Group consolidated results by business segment for the first six months of FY2018 was as follows:

#### a. Construction business

Consolidated construction orders received decreased by 16.9 billion yen (2.0%) to 835.8 billion yen, despite an increase in the overseas construction orders for subsidiaries. This was caused by a decline in domestic civil engineering orders for the Company and our subsidiaries in Japan. More specifically, orders received from the domestic building construction were 456.4 billion yen; overseas building construction, 212.3 billion yen; domestic civil engineering, 129.6 billion yen; and overseas civil engineering businesses, 37.4 billion yen.

Consolidated net sales for the construction business increased by 9.6 billion yen (1.1%) to 893.0 billion yen, compared to first six months of the previous fiscal year. This was due an increase in net

sales from the overseas building construction business of subsidiaries, which more than covered for the sales decline in the Company's domestic building construction business. More specifically, net sales of the domestic building construction were 495.1 billion yen; overseas building construction, 207.8 billion yen; domestic civil engineering, 162.6 billion yen; and overseas civil engineering businesses, 27.4 billion yen.

Operating income increased by 1.6 billion yen (3.0%) to 58.5 billion yen from the first six months of the previous fiscal year mainly due to an increase in gross profit on completed construction contracts in the construction business as a result of higher sales.

#### b. Real estate business

Net sales for the real estate business increased by 0.4 billion yen (2.6%) to 18.6 billion yen over the same period last fiscal year. Operating income was 4.9 billion yen, an increase of 1.4 billion yen (42.6%) year-on-year.

#### c. Other businesses

Net sales of other businesses increased by 9.5 billion yen (60.4%) to 25.4 billion yen from the first six months of last fiscal year, due to growth in sales in the PFI business. Operating income fell to 1.4 billion yen, a decrease of 0.5 billion yen (26.0%) year-on-year.

#### (2) Overview of consolidated financial position

Total assets at the end of the first six months of the fiscal year under review increased by 12.6 billion yen (0.6%) to 2,141.6 billion yen, compared to the end of the previous fiscal year. This growth resulted mainly from an increase in "Investment securities" due to a rise in the market prices of securities held, and increases in "Buildings and structures" and "Land" due to the purchase of real estate for business use. These increases more than compensated for the decrease in trade receivables related to construction contracts which is the sum of "Notes and accounts receivable from completed construction contracts and other" and "Electronically recorded monetary claims."

Total liabilities at the end of the first six months of the fiscal year under review decreased by 35.0 billion yen (2.5%) to 1,382.4 billion yen, compared to the end of the previous fiscal year. This was mainly due to the decreases in trade payables related to construction contracts, which is the sum of "Notes and accounts payable for construction contracts and other" and "Electronically recorded obligations," and decreases in "Short-term loans payable" and "Long-term loans payable," which exceeded the increase in "Commercial papers." Interest-bearing debt decreased by 4.8 billion yen (1.7%) to 271.9 billion yen, compared to the end of the previous fiscal year.

Total net assets at the end of the first six months of the fiscal year under review increased by 47.7 billion yen (6.7%) to 759.2 billion yen, compared to the end of the previous fiscal year. This was mainly due to the increase in the Retained earnings from the recognition of profit attributable to owners of

parent and the Valuation difference on available-for-sale securities.

This resulted in an equity ratio of 34.2% at the end of the first six months of the fiscal year under review, 2.0 point increase from the end of the previous fiscal year.

#### (3) Overview of consolidated cash flows

Net cash provided by operating activities was 22.9 billion yen, primarily due to a steady increase in cash flows in the domestic construction business (Net cash provided was 23.2 billion yen during the same period of the previous fiscal year). Net cash used in investing activities was 41.3 billion yen, mainly due to purchases of real estate properties for business use (Net cash used in investing activities was 29.1 billion yen during the same period in the previous fiscal year). Net cash used in financing activities was 14.5 billion yen, mainly due to the redemption of debt and payment of dividends (Net cash used in financing activities was 24.0 billion yen during the same period of the previous fiscal year).

As a result, cash and cash equivalents at the end of the first six months of the fiscal year under review decreased by 35.0 billion yen to 149.7 billion yen compared with the balance at the end of the previous fiscal year.

#### (4) Consolidated forecasts for fiscal year ending March 31, 2019

The consolidated forecasts for the full year (ending March 31, 2019) have not been changed from those announced when first quarter financial results were announced on August 7, 2018.
