## 2 Qualitative information

(1) Overview of consolidated business results

During the first six months of the fiscal year under review (April 1-September 30, 2019), the Japanese economy continued to recover gradually, aided by increased consumer spending and private-sector capital investment, among other factors. Uncertainty over the outlook in the global economy increased due to U.S.-China trade friction and other factors.

Orders in the domestic construction market remained firm and were generally strong for both public and privatesector construction.

Amid these conditions, our consolidated net sales for the first six months of fiscal year ending March 31, 2020 amounted to 965.2 billion yen, an increase of 28.1 billion yen (3.0\%) from the first six months of the previous fiscal year. This growth was due to steady progress on orders in hand. On the earnings front, operating income rose to 72.7 billion yen, an increase of 7.7 billion yen (11.9\%) over the same period last fiscal year. Ordinary income was 76.7 billion yen, an increase of 7.0 billion yen (10.0\%) year-on-year, and profit attributable to owners of parent rose to 56.8 billion yen, an increase of 7.9 billion yen ( $16.4 \%$ ) over the same period last fiscal year.

The Obayashi Group consolidated performance by business segment for the first six months of fiscal year ending March 31, 2020 was as follows:
a. Construction business

Consolidated construction orders received increased by 60.1 billion yen (7.2\%) over the first six months of the previous fiscal year to 895.9 billion yen, due to growth in the domestic building construction business for Obayashi Corporation (hereafter, the "Company"), which reflected the strong order environment. More specifically, orders received in the domestic building construction business were 551.1 billion yen; the overseas building construction business, 210.5 billion yen; the domestic civil engineering business, 80.7 billion yen; and the overseas civil engineering business, 53.5 billion yen.

Consolidated net sales for the construction business increased by 24.9 billion yen ( $2.8 \%$ ) from the same period during the previous fiscal year to 917.9 billion yen, due to an increase in net sales in the Company's domestic building construction business and despite a decline in the overseas building construction business of group subsidiaries. More specifically, net sales for domestic building construction were 538 billion yen; for overseas building construction, 185.1 billion yen; for domestic civil engineering, 164.5 billion yen; and for overseas civil engineering, 30.2 billion yen.

Operating income increased by 6.5 billion yen (11.1\%) to 65 billion yen from the same period during the previous fiscal year, mainly due to an increase in gross profit on completed construction contracts as a result of higher net sales in the domestic construction business.
b, Real estate business
In the real estate business, net sales increased 3.5 billion yen (19.1\%) from the same period during the previous fiscal year to 22.1 billion yen. Operating income increased by 0.8 billion yen ( $18.1 \%$ ) year-on-year to 5.8 billion yen.
c. Other businesses

Net sales of other businesses decreased by 0.3 billion yen (1.2\%) to 25.1 billion yen from the same period during the previous fiscal year. Operating income increased by 0.3 billion yen ( $21.3 \%$ ) year-on-year to 1.7 billion yen.
<Consolidated Net Sales and Operating Income by Segment>

| Operating income | 41,191 | 5,263 | 17,502 | 1,138 | 65,096 | 5,878 | 1,789 | 72,764 |

(2) Overview of consolidated financial position

Total assets as of September 30, 2019 decreased by 24.1 billion yen ( $1.1 \%$ ) compared with the balance at the end of the previous fiscal year, to $2,190.3$ billion yen. This was mainly due to a decrease in trade receivables related to construction contracts, which are the sum of "Notes and accounts receivable from completed construction contracts and other" and "Electronically recorded monetary claims," and a decrease in "Investment securities" due to a decline in the market price of shares held.

Total liabilities as of September 30, 2019 decreased by 62.5 billion yen ( $4.4 \%$ ) compared with the balance at the end of the previous fiscal year, to $1,353.8$ billion yen. This was mainly due to a decrease in trade payables related to construction costs which are the sum of "Notes and accounts payable for construction contracts and other" and "Electronically recorded obligations" and a decrease in "Short-term loans payable" and "Long-term loans payable." The consolidated balance of interest-bearing debt as of September 30, 2019 decreased by 21.3 billion yen (7.9\%) to 250.8 billion yen compared with the balance at the end of the previous fiscal year.

Total net assets as of September 30, 2019 increased by 38.3 billion yen ( $4.8 \%$ ) compared with the balance at the end of the previous fiscal year, to 836.4 billion yen. This was mainly due to an increase in "Retained earnings" from the recognition of profit attributable to owners of parent, which compensated for the decrease in "Valuation difference on available-for-sale securities".

As a result, the equity ratio as of September 30, 2019 was $36.8 \%$, up 2.1 percentage points from the end of the previous fiscal year.
(3) Overview of consolidated cash flows

During the first six months of fiscal year ending March 31, 2020, net cash provided by operating activities amounted to 66 billion yen, primarily due to a steady increase in net cash inflow in domestic construction business (net cash provided by operating activities amounted to 22.9 billion yen in the same period during the previous fiscal year). Net cash used in investment activities amounted to 16.6 billion yen, primarily due to purchase of machinery and equipment (net cash used in investment activities amounted to 41.3 billion yen in the same period during the previous fiscal year). Net cash used in financing activities amounted to 34.2 billion, primarily due to repayment of loans and payment of dividends (net cash used in financing activities amounted to 14.5 billion yen in the same period during the previous fiscal year).

Consequently, cash and cash equivalents as of September 30, 2019 increased by 14.3 billion yen to 172 billion yen compared with the balance at the end of the previous fiscal year.
(4) Consolidated forecasts for fiscal year ending March 31, 2020

The consolidated forecasts for the full year (ending March 31, 2020) have not been revised from those announced when financial results for the first quarter were announced on August 7, 2019.
