## 2 Qualitative Information

(1) Overview of consolidated business results

Consolidated net sales for the first nine months of fiscal year ending March 31, 2022 (from April 1 to December 31,2021 ) amounted to $1,376.1$ billion yen, an increase of 99.2 billion yen ( $7.8 \%$ ) from the same period in the previous fiscal year. This increase was mainly caused by an increase in net sales posted due to steady progress on multiple large projects in the domestic building construction business. As disclosed in "OBAYASHI CORPORATION announces its revised financial forecasts for FY2021" on November 8, 2021, the recognition of a provision for loss on construction contracts on multiple large construction projects in the domestic building construction business in the second quarter of fiscal year ending March 31, 2022 led to a decline in gross profit on completed construction contracts at the nonconsolidated level. This and other factors resulted in operating income of 46.1 billion yen, a decrease of 40.7 billion yen (46.9\%) from the same period in the previous fiscal year. Ordinary income was 52.7 billion yen, a decrease of 38.3 billion yen (42.1\%) year-on-year, and profit attributable to owners of parent was 38.3 billion yen, a decrease of 32.7 billion yen (46.1\%) year-on-year.
(2) Overview of consolidated financial position

Total assets as of December 31, 2021 increased by 126.1 billion yen (5.6\%) compared with the balance at the end of the previous fiscal year (March 31, 2021), to 2,398.7 billion yen. This was mainly due to increases in "Trade receivables related to construction contracts" which are the sum of "Notes and accounts receivable from completed construction contracts and other" and "Electronically recorded monetary claims" and in "Construction in progress" mainly due to the acquisition of commercial real estate, which exceeded a decrease in "Inventories for PFI and other projects."

Total liabilities as of December 31, 2021 increased by 114.2 billion yen ( $8.7 \%$ ) compared with the balance at the end of the previous fiscal year, to $1,424.9$ billion yen. This was mainly due to an increase in "Commercial papers," "Short-term loans payable," and other interest-bearing debt. The balance of interest-bearing debt as of December 31, 2021 increased by 96.0 billion yen (36.1\%) compared with the balance at the end of the previous fiscal year (March 31, 2021), to 362.0 billion yen.

Total net assets as of December 31, 2021 increased by 11.8 billion yen (1.2\%) compared with the balance at the end of the previous fiscal year, to 973.8 billion yen. This was mainly due to an increase in "Retained earnings" from the recognition of profit attributable to owners of parent.

As a result, the equity ratio as of December 31, 2021 was $39.3 \%$, down 1.7 percentage points from the end of the previous fiscal year.
(3) Consolidated forecasts for fiscal year ending March 31, 2022

Consolidated forecasts for fiscal year ending March 31, 2022 were reviewed and remain unchanged. As disclosed in "OBAYASHI CORPORATION announces its revised financial forecasts for FY2021" on November 8, 2021, the Company anticipates recognition of a provision for loss on construction contracts in the domestic building construction business in the fourth quarter of fiscal year ending March 31, 2022. The figures disclosed on November 8, 2021 have not changed (Net sales: 1,960 billion yen; Operating income: 34.5 billion yen; Ordinary income: 40 billion yen; Profit
attributable to owners of parent: 35.0 billion yen).
(4) Response to COVID-19

The Company formulated the Basic Plan of Action to Prevent the Spread of the Novel Coronavirus in May 2020, based on guidelines formulated by industry organizations. A version for construction sites, Guidelines for Actions to Prevent the Spread of the Novel Coronavirus at Construction Sites, was formulated in June 2020.

Based on these plans of action, we are working to maintain business activities and achieve results on par with pre-COVID-19 levels, as we take steps to establish office and work environments that avoid the three crowded conditions of "close contacts, crowded places and closed spaces" and other steps to prevent the spread of novel coronavirus infections and to minimize the impact when someone is infected.

As we focus on maintaining business activities overseas in countries where we do business, we are taking steps to ensure the safety of employees and their families who are living overseas, in light of the status of COVID-19 spread, the state of the healthcare system, and other considerations in these countries.

The Obayashi Group will continue to place the highest priority on protecting the health and lives of and ensuring safe living conditions for all involved, and will implement additional safety measures as needed in the future as we work in earnest to respond to the demand for new construction needed in the COVID-19 and post-COVID-19 eras. Such demand includes establishment of public infrastructure and construction needed to ensure the continuity of private-sector businesses, as well as data center construction and renovation work to adapt to new lifestyles.
(5) Reduction of cross-shareholdings

The Company owns shares in our customers' businesses (hereafter, "cross-shareholdings") to maintain and strengthen trade relationships with our customers. The Company reviews the significance of owning shares in each company by regularly reporting to the Board of Directors on valuation gains/losses, and collective consideration of indicators of profitability such as capital cost and return on business from maintaining and strengthening our transactional relationship with a company. We verify the economic rationale for owning shares over the medium and long term, and sell shares as needed when the business significance of owning the shares has weakened. (Shares in listed companies sold over 10 years, from fiscal year ended March 31, 2012 to fiscal year ended March 31, 2021: Approx. 63.9 billion yen; approx. 7.6 billion yen of which were sold in fiscal year ended March 31, 2021, on a consolidated market value basis).

In the next medium-term business plan, which is currently being formulated, we will proceed further on reassessment of the significance of owning shares and overall investment efficiency for the company, and intend to establish the goal of about 150.0 billion yen in share sales to bring cross shareholdings to $20 \%$ of consolidated net assets or below by the end of March, 2027.

The Company plans to use the proceeds from sales of cross-shareholdings effectively to enhance corporate value, by investing in areas that will contribute to sustained growth with medium and long-term growth in mind, in addition to investing for the purpose of securing stable investment revenue.

## 3 Financial Highlights

## (4) Notes on the Quarterly Consolidated Financial Statements

(Change in Accounting Policies)
(Implementation of the Accounting Standard for Revenue Recognition and Related Guidance)
The Accounting Standard for Revenue Recognition (ASBJ Statement No. 29, revised March 31, 2020; hereafter, the "Revenue Recognition Accounting Standard") and related guidance were implemented from the beginning of the first quarter of consolidated fiscal year ending March 31, 2022. Under this standard, the amount the company expects to receive in exchange for goods and services is recognized as revenue when control over the promised goods or services is transferred to the customer.
The main changes from implementation of the Revenue Recognition Accounting Standard and related guidance are as follows:
(1) Recognition of revenue on construction contracts

For construction contracts in which the obligation is fulfilled over a certain period of time in the domestic and overseas building construction and the domestic and overseas civil engineering segments, revenue was not recognized until the degree of progress on fulfiling the obligation could be reasonably estimated in the past. This has changed to the method of recognizing revenue according to the cost recovery method when the degree of progress on fulfilling the obligation cannot be reasonably estimated, but recovery of the costs incurred can be expected.
(2) Recognition of revenue on agency transactions

For revenue on commercial business in the domestic building construction segment, the total amount of payments received from the customer was recognized as revenue in the past. However, we have changed the method of revenue recognition when the Obayashi Group serves as an agent in providing a product to the customer. Under the new method, the net amount after deducting the amount paid to the supplier of the product from the amount received from the customer is recognized as revenue.

The implementation of the Revenue Recognition Accounting Standard and related guidance follows the transitional treatment in the exception clause of Paragraph 84 of the Revenue Recognition Accounting Standard. The new accounting standard was applied to the balance of retained earnings from the beginning of the period and retained earnings were adjusted for the cumulative impact assuming application of the new accounting standard retroactively before the beginning of the accounting period for the first quarter of consolidated fiscal year ending March 31, 2022.

This resulted in an decrease of "Net sales" of 15,344 million yen, an decrease of 16,281 million yen in "Cost of sales," and a increase of 937 million yen in "Operating income" in the second quarter of consolidated fiscal year ending March 31, 2022. "Non-operating income" decreased by 25 million yen, and "Ordinary income" and "Profit attributable to owners of parent" each increased by 912 million yen in the same consolidated fiscal period. The balance of "Retained earnings" at the beginning of the period also increased by 2,569 million yen.
(Implementation of the Accounting Standard for Fair Value Measurement)
The Accounting Standard for Fair Value Measurement (ASBJ Statement No. 30, July 4, 2019; hereafter, "Fair Value Accounting Standard") and related guidance were implemented from the beginning of the first quarter of consolidated fiscal year ending March 31, 2022. In accordance with the transitional treatment specified in Paragraph 19 of the Fair Value Accounting Standard and Paragraph 44-2 of the Accounting Standard for Financial Instruments (ASBJ Statement No. 10, July 4, 2019), the new accounting policy specified in the Fair Value Accounting Standard and related standards were applied prospectively. The change did not have any impact on the quarterly consolidated financial statements.

## 7 Non-consolidated Financial Statements
