## 2 Qualitative Information

1) Overview of consolidated business results
(1) Consolidated performance for fiscal year ended March 31, 2022

In the fiscal year ended March 31, 2022, the Japanese economy showed some signs of recovery, reflecting the progress in the normalization of economic and social activities thanks to relaxing restrictions on movement. However, risk factors remain, such as the surging raw material prices against the backdrop of the situation in Ukraine and the global supply chain disruption, and the outlook continues to be unclear.
In the domestic construction market, orders for public works projects were firm, and those for private projects showed signs of recovery. It remains difficult to foresee the future of the order environment given the intensifying competition to win orders, especially for large-scale construction projects, and the deteriorating corporate profits caused by rising raw materials costs, among other factors.
Under such circumstances, our consolidated net sales amounted to $1,922.8$ billion yen, an increase of 155.9 billion yen ( $8.8 \%$ ) from the previous fiscal year, due primarily to higher sales in the domestic building construction business. Meanwhile, gross profit on completed construction contracts declined mainly as the Company recorded provision for loss on construction contracts for multiple large-scale projects in the domestic building construction business. As a result, operating income totaled 41.0 billion yen, a decrease of 82.1 billion yen ( $66.7 \%$ ) from the previous fiscal year, ordinary income came to 49.8 billion yen, a decline of 78.9 billion yen ( $61.3 \%$ ), and profit attributable to owners of parent was 39.1 billion yen, a decrease of 59.6 billion yen (60.4\%)

The Obayashi Group performance by business segment for fiscal year ended March 31, 2022 was as follows: Construction business

Orders received (construction business) rose by 184.7 billion yen ( $9.9 \%$ ) over the previous year to 2,042.4 billion yen. Orders received in the domestic building construction business of the Company and those received by group subsidiaries in the overseas building construction business increased. More specifically, orders received for the domestic building construction business totaled $1,217.3$ billion yen; for the overseas building construction business 340.5 billion yen; for the domestic civil engineering business 408.4 billion yen; and for the overseas civil engineering business 76.1 billion yen

Non-consolidated orders received increased by 2.1 billion yen ( $0.1 \%$ ) from the previous fiscal year to $1,511.2$ billion yen. More specifically, orders received for building construction projects increased 23.7 billion yen (2.0\%) year-on-year to $1,187.8$ billion yen, while orders for civil engineering projects declined by 21.6 billion yen ( $6.3 \%$ ) to 323.4 billion yen

Consolidated net sales for the construction business increased by 111.9 billion yen (6.6\%) from the previous fiscal year to $1,795.2$ billion yen. This was primarily attributable to an increase in sales recorded from steady progress in multiple large-scale projects in the domestic building construction business. More specifically, net sales for the domestic building construction business were 1,059.9 billion yen; for the overseas building construction business 298.8 billion yen; for the domestic civil engineering business 346.8 billion yen; and for the overseas civil engineering business 89.6 billion yen. Operating income decreased by 90.7 billion yen ( $83.6 \%$ ) to 17.8 billion yen from the previous fiscal year, mainly due to provision for loss on construction contracts for multiple large-scale projects in the domestic building construction business.

Non-consolidated net sales increased by 141.5 billion yen (11.7\%) from the previous fiscal year to 1,351.1 billion yen. More specifically, building construction sales rose 123.4 billion yen ( $13.3 \%$ ) year-on-year to $1,050.1$ billion yen and civil engineering sales increased by 18.1 billion yen (6.4\%) year-on-year to 301.0 billion yen.

## Real estate business

Net sales for the real estate business increased by 18.6 billion yen ( $44.1 \%$ ) to 61.1 billion yen from the previous fiscal year, and operating income rose by 8.4 billion yen ( $70.8 \%$ ) to 20.3 billion yen, primarily due to sales increase from the sale of part of properties held by the group subsidiaries following a review of the portfolio of commercial real estate owned.

## Other businesses

Net sales of other businesses rose by 25.3 billion yen (61.6\%) to 66.5 billion yen from the previous fiscal year, and operating income increased by 0.1 billion yen (6.8\%) to 2.8 billion yen, as sales of private finance initiatives (PFI) increased.
<Consolidated Net Sales and Operating Income (Loss) by Segment>
(Yen in millions)

| Segment | Construction business |  |  |  |  | Real estate business | Other businesses | Total |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Domestic building construction | Overseas building construction | Domestic civil engineering | Overseas civil engineering | Total construction business |  |  |  |
| Net sales | 1,059,945 | 298,818 | 346,808 | 89,635 | 1,795,208 | 61,124 | 66,551 | 1,922,884 |
| Operating income (loss) | $(8,900)$ | 818 | 23,861 | 2,052 | 17,832 | 20,395 | 2,823 | 41,051 |

(2) Outlook for consolidated performance for fiscal year ending March 31, 2023

The outlook for consolidated performance in fiscal year ending March 31, 2023 is as follows: 2,040.0 billion yen in orders received (including 95.0 billion yen from the real estate and other businesses), $2,050.0$ billion yen in net sales (including 135.0 billion yen from the real estate business and other businesses), 100.0 billion yen in operating income, 104.0 billion yen in ordinary income, and 76.0 billion yen in profit attributable to owners of parent.
2) Overview of consolidated financial position

Total assets as of March 31, 2022 increased by 149.4 billion yen ( $6.6 \%$ ) compared with the balance at the end of the previous fiscal year to $2,422.0$ billion yen. This was mainly due to an increase in trade receivables related to construction contracts (total of notes and accounts receivable from completed construction contracts and other and electronically recorded monetary claims) as well as increases in buildings and structures and machinery, vehicles, tools, furniture and fixtures due mainly to purchase of commercial real estates, while costs on uncompleted construction contracts and inventories for PFI and other projects declined.

Total liabilities increased by 122.5 billion yen ( $9.3 \%$ ) to $1,433.1$ billion yen compared with the balance at the end of the previous fiscal year. This was mainly attributable to increases in trade payables related to construction costs (total of notes and accounts payable for construction contracts and other and electronically recorded obligations) and provision for loss on construction contracts. The balance of interest-bearing debt increased by 14.4 billion yen (5.4\%) compared with the balance at the end of the previous fiscal year, to 280.4 billion yen.

Total net assets as of March 31, 2022 increased by 26.9 billion yen ( $2.8 \%$ ) compared with the balance at the end of the previous fiscal year to 988.9 billion yen. This was mainly due to increases in retained earnings from the recognition of profit attributable to owners of parent.

As a result, the equity ratio as of March 31,2022 was $39.5 \%$, down 1.5 percentage points from the end of the previous fiscal year.
3) Overview of consolidated cash flows

During fiscal year ended March 31, 2022, net cash provided by operating activities amounted to 69.6 billion yen, primarily due to an improvement in net cash inflow of the construction business (net cash provided by operating activities was 24.8 billion yen in the previous fiscal year). Net cash used in investing activities amounted to 49.8 billion yen, primarily due to the purchase of commercial real estate (net cash used in investing activities was 79.0 billion yen in the previous fiscal year). Net cash used in financing activities amounted to 12.4 billion yen, primarily due to payment of dividends, which exceeded proceeds from loans payable (net cash used in financing activities was 8.4 billion yen in the previous fiscal year).

Consequently, cash and cash equivalents as of March 31, 2022 increased by 12.8 billion yen to 249.3 billion yen compared with the balance at the end of the previous fiscal year.
4) Response to COVID-19

The Company formulated the Basic Plan of Action to Prevent the Spread of the Novel Coronavirus in May 2020, based on guidelines formulated by industry organizations. A version for construction sites, Guidelines for Actions to Prevent the Spread of the Novel Coronavirus at Construction Sites, was formulated in June 2020.

Based on these plans of action, we are working to maintain business activities and achieve results on par with pre-COVID-19 levels, as we take steps to establish office and work environments that avoid the three crowded conditions of "close contacts, crowded places and closed spaces" and other steps to prevent the spread of novel coronavirus infections and to minimize the impact when someone is infected.

In the countries where it operates the business, the Company has been taking measures necessary to ensure
the safety of its expatriates and their families, based on the premise of maintaining business activities, by taking into consideration the status of infection and the medical care system in those countries.

The Obayashi Group will continue to place the highest priority on protecting the health and lives of and ensuring safe living conditions for all involved, and will implement additional safety measures as needed in the future as we work in earnest to respond to the demand for new construction needed in the COVID-19 and post-COVID-19 eras. Such demand includes establishment of public infrastructure and construction needed to ensure the continuity of private-sector businesses, as well as data center construction and renovation work to adapt to new lifestyles.
5) Basic policy regarding the allocation of profits and dividend payout plan for fiscal years ended March 31, 2022 and ending March 31, 2023

The policy in the Medium-Term Business Plan 2017, whose final fiscal year is the current fiscal year, is to sustain stable dividend payouts to our shareholders over the long term for a target consolidated payout ratio of $20 \%$ to $30 \%$, provide shareholders with returns commensurate with the Group's performance, and also consider the purchase of treasury stock. In doing so, we will take into account the need to enhance internal reserves to further strengthen the Company's financial base, develop technologies, and implement capital expenditure for the future.
While the Company in the fiscal year under review posted a significant decline in profits compared with the previous fiscal year, it plans to pay an annual dividend of 32 yen per share (unchanged from the previous fiscal year; consolidated dividend payout ratio of $58.7 \%$ ) from the perspective of sustaining stable dividend payouts to our shareholders over the long term. Accordingly, deduction of the midterm dividend of 16 yen will result in an expected year-end dividend of 16 yen per share.

In the "Medium-Term Business Plan 2022," a five-year management plan with FY2023.3 as its first fiscal year and announced on March 11, 2022, the Company established a new policy on allocation of profits that sets forth dividend on equity ratio (DOE) of about $3 \%$ as a guide for dividends.

Regarding consolidated dividend payout ratio, which was the criterion in the Medium-Term Business Plan 2017, the guideline for the dividend was decided corresponding to the profits of each fiscal year, whereas in the case of DOE, the guideline for the dividend is decided based on equity (net assets less non-controlling interests) as of the end of the fiscal year.

- DOE $3 \%=\{($ Equity as of the end of the previous fiscal year + Equity as of the end of the current fiscal year) / 2\} $\times 3 \%$
-> Guideline for total annual dividend (midterm + year-end dividends)
As the amount of dividend is decided corresponding to equity, which is the accumulation of profits till then, this accumulation of profits leads to increases in dividends, and the increase in equity is returned to shareholders in the medium to long term.

For fiscal year ending March 31, 2023, the Company projects a dividend of 21 yen per share both for the midterm and year-end dividends for a total annual dividend of 42 yen per share, calculating the dividend at $3 \%$ in DOE based on the earnings forecast for the fiscal year.
6) Policy regarding shares that we own in our customers' businesses

The Company holds shares in its business partners for the purpose of maintaining and strengthening the business relationship with customers (hereinafter referred to as "cross-shareholdings"). In terms of the significance of holding them, it reports the loss or gain on valuation of securities to the Board of Directors on a regular basis, and verifies the medium- to long-term economic rationality by comprehensively taking into consideration profitability evaluation criteria such as capital cost and business return from maintaining and strengthening the business relationship. Shares that have been found, upon verification, to have weakened in terms of the significance of holding for business purposes are sold by the Company.

In the Medium-Term Business Plan 2022, the Company took further forward the review of the significance of having cross-shareholdings and investment efficiency and decided to sell approximately 150.0 billion yen worth of shares in total, capping its limit to $20 \%$ of consolidated net assets as early as possible by the end of March 2027.

The Company, in order to make use of the proceedings from the sale of cross-shareholdings to improve its corporate value, plans to effectively utilize them for investment in fields that contribute to its continuous growth, also taking into consideration the medium- to long-term growth potential in addition to investment aimed at acquiring stable investment income.

## 3 Basic View on Selection of the Accounting Standards

The Obayashi Group intends to prepare consolidated financial statements according to the Japanese generally accepted accounting principles. We have taken into account the comparability of consolidated financial statements in different periods and comparisons between companies.

We also intend to respond appropriately to the adoption of IFRS upon collective consideration of conditions in Japan and overseas.

## (5) Notes on the Quarterly Consolidated Financial Statements

## (Change in Accounting Policies)

(Implementation of the Accounting Standard for Revenue Recognition and Related Guidance)
The Accounting Standard for Revenue Recognition (ASBJ Statement No. 29, revised March 31, 2020; hereafter, the "Revenue Recognition Accounting Standard") and related guidance were implemented from the beginning of the first quarter of consolidated fiscal year ending March 31, 2022. Under this standard, the amount the company expects to receive in exchange for goods and services is recognized as revenue when control over the promised goods or services is transferred to the customer.

The main changes from implementation of the Revenue Recognition Accounting Standard and related guidance are as follows:
(1) Recognition of revenue on construction contracts

For construction contracts in which the obligation is fulfilled over a certain period of time in the domestic and overseas building construction and the domestic and overseas civil engineering segments, revenue was not recognized until the degree of progress on fulfilling the obligation could be reasonably estimated in the past. This has changed to the method of recognizing revenue according to the cost recovery method when the degree of progress on fulfilling the obligation cannot be reasonably estimated, but recovery of the costs incurred can be expected.
(2) Recognition of revenue on agency transactions

For revenue on commercial business in the domestic building construction segment, the total amount of payments received from the customer was recognized as revenue in the past. However, we have changed the method of revenue recognition when the Obayashi Group serves as an agent in providing a product to the customer. Under the new method, the net amount after deducting the amount paid to the supplier of the product from the amount received from the customer is recognized as revenue.

The implementation of the Revenue Recognition Accounting Standard and related guidance follows the transitional treatment in the exception clause of Paragraph 84 of the Revenue Recognition Accounting Standard. The new accounting standard was applied to the balance of retained earnings from the beginning of the period and retained earnings were adjusted for the cumulative impact assuming application of the new accounting standard retroactively before the beginning of the accounting period for the first quarter of consolidated fiscal year ending March 31, 2022.

On the Consolidated Statements of Income for the current fiscal year, as a result, net sales and cost of sales declined 18,349 million yen and 19,992 million yen respectively, and operating income increased 1,643 million yen compared with the levels prior to the application of the accounting standards for revenue recognition. Non-operating income declined 10 million yen, while ordinary income and profit before income taxes increased 1,632 million yen each.
The balance of retained earnings at the beginning of the current period on the Consolidated Statements of Changes in Net Assets increased 2,569 million yen, as the cumulative impact was reflected in net assets as of the beginning of the current fiscal year.
(Implementation of the Accounting Standard for Fair Value Measurement)
The Accounting Standard for Fair Value Measurement (ASBJ Statement No. 30, July 4, 2019; hereafter, "Fair Value Accounting Standard") and related guidance were implemented from the beginning of the first quarter of consolidated fiscal year ending March 31, 2022. In accordance with the transitional treatment specified in Paragraph 19 of the Fair Value Accounting Standard and Paragraph 44-2 of the Accounting Standard for Financial Instruments (ASBJ Statement No. 10, July 4, 2019), the new accounting policy specified in the Fair Value Accounting Standard and related standards were applied prospectively. The change did not have any impact on the quarterly consolidated financial statements.

## 9 Non-consolidated Financial Statements
